

Tesla Smart Composition Scale

LED DISPLAY

WI-FI AND
BLUETOOTH
CONNECTION

4 HIGH
PRECISION
SENSORS

ITO
COATING

Specification

Power	3×AAA batteries (not included)
Dimensions of the scale	300×300 ×22mm
Measuring range (from - to):	5Kg - 180 Kg
Weight limit	180 kg
Material	composite
Operating temperature	0 °C to 40 °C
Measuring Values	Weight / BMI / Body fat / Water content (percentage of body water) / Muscle / Calories (KCAL) / Bone mass / Body score / Body weight without fat / Visceral fat / Protein / Body type / Metabolic age
App	Tesla Smart app for Android and iOS
App Language	EN,DE,CZ,SK,PL,HU,SL
Connectivity	Wi-Fi 2.4 GHz IEEE 802.11b/g/n, Bluetooth

Tesla Smart Composition Scale

A scale that only measures weight? Never again! The Tesla Smart Composition Scale is not built for such a simple task. With cleverly built-in sensors and electrodes, it can recognize up to 13 readings.

Tesla Smart for Android and iOS

1600

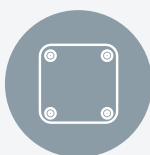

ALL THE DATA IS ALWAYS IN SIGHT.

The scale itself has a very clear LED display, where you can see all the important information instantly. Thanks to the Wi-Fi connection, all this information is then transferred to your smartphone or tablet, where you can view it clearly.

EASY DATA HANDLING

The device can be very easily connected to the Tesla Smart app, which helps you evaluate the information and warn you if your health could be at risk. You can download the app on iOS and Android devices.

PERFECT SENSING

There are four strain gauges in the scale, which are built strategically to ensure the most accurate weight measurement at all times. In addition to these sensors, there are several electrodes on the top of the device that determine and measure other data.
