Product overview

A versatile wall mount housing with a ventilation option, allowing airflow making them ideal for thermostats, sensor probes, and general environmental sensing applications. The solid housing lends itself to wall mount controls and smart applications such as lighting, security or network modules.

- Moulded in ABS UL94-V0
- Front and back clip together (tool required for disassembly once wall mounted)
- Internal PCB mount pillars moulded into the front and back sections of the housing
- Internal clips for snap-in PCB
- Recessed front face for overlay
- Recessed rear face for additional labelling
- Plain and vented versions available
- Rear knockout for cable entry (20mm diameter)
- Multiple mounting options, including single gang UK plug back box mount points
- Deep enough to house PP3 9V battery
