

## Tesla Smart Camera 360 2K

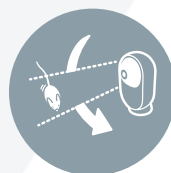

RESOLUTION 2K

PAN AND TILT

5 GHZ

AUTOTRACKING

## Specification:

<b>Resolution</b>	2304 x 1296px
<b>Power supply</b>	DC 5V/1A (USB-C)
<b>Sensor type</b>	1/2.8" 3Mpx CMOS
<b>IR range</b>	10 m
<b>Lens</b>	3.6 mm F2.0
<b>Dimensions</b>	59 x 63 x 110 mm
<b>Angle of vision (H/V/D):</b>	91°/50°/110°
<b>Storage</b>	MicroSD karta, Cloud, NVR
<b>Connections</b>	WiFi 2,4GHz & 5GHz IEEE802.11b/g/n/ac
<b>Functions</b>	Smart motion and sound detection, pan and tilt, two-way communication, ONVIF, autotracking, night vision, private mode, motion detection zones
<b>Application</b>	Tesla Smart app for Android and iOS
<b>App language</b>	EN, CZ, SK, PL, HU, SL, HR, DE
<b>Product ID</b>	TSL-CAM-PT300
<b>Heureka ID</b>	Tesla Smart Camera 360 2K TSL-CAM-PT300

### Pan and Tilt

The Tesla Smart Camera 360 2K allows you to control the rotation and tilt of the camera in both the horizontal and vertical axis. This gives you the ultimate flexibility in setup and ensures you don't miss even the smallest detail. Do you need to find out if a window or door is actually closed? This isn't a problem with the 360 2K camera.

### Resolution

With a resolution of 2304x1296px, the Tesla Smart Camera 360 2K provides maximum detail. Thanks to the infrared LEDs, you won't miss anything even in low light conditions or at night, and details are preserved from up to 10 metres away.

### Two-way communication

The Tesla Smart Camera 360 2K with built-in microphone and speaker is a convenient way to stay in touch with your loved ones wherever you are. The camera supports two-way communication, so you can talk to your family or pet as if they were right there in the room with you.

### Motion tracking

Intelligent motion tracking automatically monitors and locates any movement in front of the camera, for example by a person or animal. According to the settings, it can also send notifications about movement. Detect an uninvited guest before they can do any damage.

### Sound and motion detection

The Tesla Smart Camera 360 2K is your eyes and ears, helping you monitor your home when you're not there. Depending on the settings, the camera can detect important sounds, such as a window breaking. It also allows you to configure different motion detection modes. Ease your daily worries.

### Tesla Smart for Android and iOS

### 5GHz Wi-Fi

The Tesla Smart Camera 360 2K works with 2,4GHz or 5GHz Wi-Fi connections. Due to the increasing popularity of 5GHz home Wi-Fi, there is no need to worry about configuration.
